CHANGED IDEAS OF BEAUTY
Women No Longer Go to Extremes
Which Were Thought Necessary
Some Centuries Ago.
What women will not do to be thought beautiful is astounding even now, but listen to these facts and you'll agree that in 19 centuries femininity has gained something of common sense.
In Japan women used to glid their teeth, while in the Indies they painted them red. Guzerat women blackened

The Peruvians did all sorts of stunts to flatten their heads, and everybody knows how the Chinese women bound up their feet to stop the growth. The fashion of patches came from Arabia, probably beginning with the astrological signs, but drifting into conceals like small ships out from the black courtplaster worn at the courts of the Louis's.

In Louis XV's time the women even went so far as to paste on moles in eyebrows—and now the girls are pulling them out to such mere suggestions you might think eyebrows were entirely of concealer.

was all smiles over the wonderful showing of the great Sun Shine Sunday School. After a full and complete presentation to the Sunday School, Prof. Harrison of Chicago who has been in France entertaining the wounded soldiers in the Y. M. C. A. Hospitals, Prof. Harrison highly complimented the Superintendent for the fine work in the Sunday School in the state. In the financial struggle the Sunday School raised \$14.65. You are welcome in our Sunday School every Sunday morning at 9:30. The pastor closed his sermon to the young people in their mission service with a powerful sermon.

Dr. A. L. Boone and his flock were with us in the evening service and the Doctor preached one of the greatest sermons ever heard in Morning Chapel.

The Doctor lead his flock in a financial effort and the report shows that \$35.40 was raised in five minutes.

The great attractive Epworth League was again in the lime light at 6 o'clock. The program rendered by the famous Over the Top Section with some of the best talent of the church was easily the hit of the season. In the Bible Drill the Ever Ready Section carried off the honors.

Prof. Harrison of the Paris Grand Opera Company and Formerly of Chicago, was the principal speaker of the evening. The Prof. has just returned from France where he has been entertaining the wounded Race men in the Hospitals. Taking for a subject, When our Boys Return from France what can They Expect?—the Prof. held the house spell bound, winding up with some of his own poetry, as master piece. Speaking of the Epworth League of Morning Chapel, Prof. Harrison said it was the best he had seen anywhere. The financial banner is yet with the Over Top Section with Mrs. Pope leader. Amount raised Sunday \$5.68.

Coming Sunday the founder, promoter and builder of the Epworth League in Morning Chapel, Hon. J. E. Martin as an added attraction. Prof. E. L. Gooden, the celebrated Violinist. The league buttons can be seen on every loyal Leaguer. You will always be a welcome visitor in the Epworth League ever Sunday evening at 6 o'clock.

EMORY C. SMITH, Sr., President Epworth League.
PROF. J. T. LANGSTON, Supt. Sunday School.

It is well with us, the sunshine of peace and prosperity is shining in our most beautiful Gothic edifice. We wish all well, even those who oppose and wish us evil. We are helping all and are good to those who spitefully use us; thus our great prosperity. Four persons joined the church Sunday. Collection \$116.45 without any extra collection. Total donated to charity \$18.00 and sent a pound to one of our worthy members. The Monarch Sunday School of Allen Chapel is blessed with a steady growth of new scholars, why not grow when we have faithful Christian gentlemen, Will Davis as our superintendent. He is always on time, bright and cheerful and bringing sunshine to his teachers and pupils.

Mrs. Zollie Coffey commuted at the altar of Methodism with her husband, the great spirit of Christian union is co-extensive. All visitors are accorded the rights and privileges of the ordinance of the church if they are in good standing in their own church. The Stewardess Boards closed their contest with great results.

Mrs. A. L. Ballard president of Board No. 2, received the honors. The Deacons' Board will next appear in the lime light of the public.

What wonderful talent there is in Allen Chapel, and it is now being developed in all departments of the church.

CHICAGO NEGROES INTERESTED IN NEXT SPEAKER OF THE HOUSE

By the Associated Negro Press.
Chicago, March 6.—The caucus decision to make Congressman Gillett, of Massachusetts, the next Speaker of the House, instead of Congressman Mann of Illinois, is being discussed generally by the Negro citizens of Chicago. While Congressman Mann has some admirers among members of the Race, it is pointed out that he has never been responsible for a Negro appointment during his entire career, and in subjects affecting the welfare of the Negro, he has not been known in his support.

This subject is one of vital importance is not doubted by any student of world conditions. Japan is the force in the big Five may be said to be the spokesman of the "Colored People of the world."

Bluff That Father Makes

Siberian Daddy is Supposed to Be in No Hurry to Get Rid of Marriageable Daughter.
Ordinarily fathers of marriageable daughters are very much awake at the approach of a prospective son-in-law, and are not at all given to being asleep when the actual request for the young lady's hand is made.

But in far-off Siberia, among the Samoyed, a people who handle close about the arctic circle, things are different, and the father is, or pretends to be, more or less asleep when the matchmaker arrives, and has to be awakened.

The girl's father always assumes a passive, taciturn attitude, a sort of drowsy, uninterested air, even if the terms offered are entirely to his liking. As one gift after another is proffered, he still preserves his silence and even nods as though the whole thing made him tired and sleepy. Finally, the matchmaker, apparently at the end of his patience, strikes the

WHERE FLAPPER IS UNKNOWN

Life in Japan Seems Largely a Matter of Negations for Both Girls and Women.
In Japan the "flapper" has not arrived. The majority of Japanese young girls never exchange a word with a man of marriageable age outside their own immediate family. There is no masculine audience for young feminine coquettes and there is no masculine eye to admire the little personal adornments, the choice of which fills such a large part of the frivolous western sister's exciting life.

It would seem indeed that life for the young Japanese girl is mainly a matter of negations, observes the New East Magazine. She has no real clothes problem. Her dress has been designed by some mysterious power long before she was born. It has been decreed that at a certain age she shall wear certain colors, which must be changed at certain seasons. Her kimono shall have longer or shorter sleeves on this or that occasion. Her obi shall be so high and of such and such colors. She has not even to think of how she shall arrange her hair, for the same mysterious power has decreed that the hair shall be oiled, stiffened, combed and twisted into a given pattern. As this mysterious power has to be obeyed, a hairdresser has to be employed regularly for the right fixing of this coiffure.

A Japanese girl is scarcely an individual, but is rather part of a plan, and her silhouette must correspond with the plan. A husband having been obtained for her, a dowry provided, her wardrobe filled, she has not even to exercise originality in the furnishing of her home. The same mysterious power has decreed how this home shall look.
